

urPadel

Run unforgettable **Americano & Mexicano**

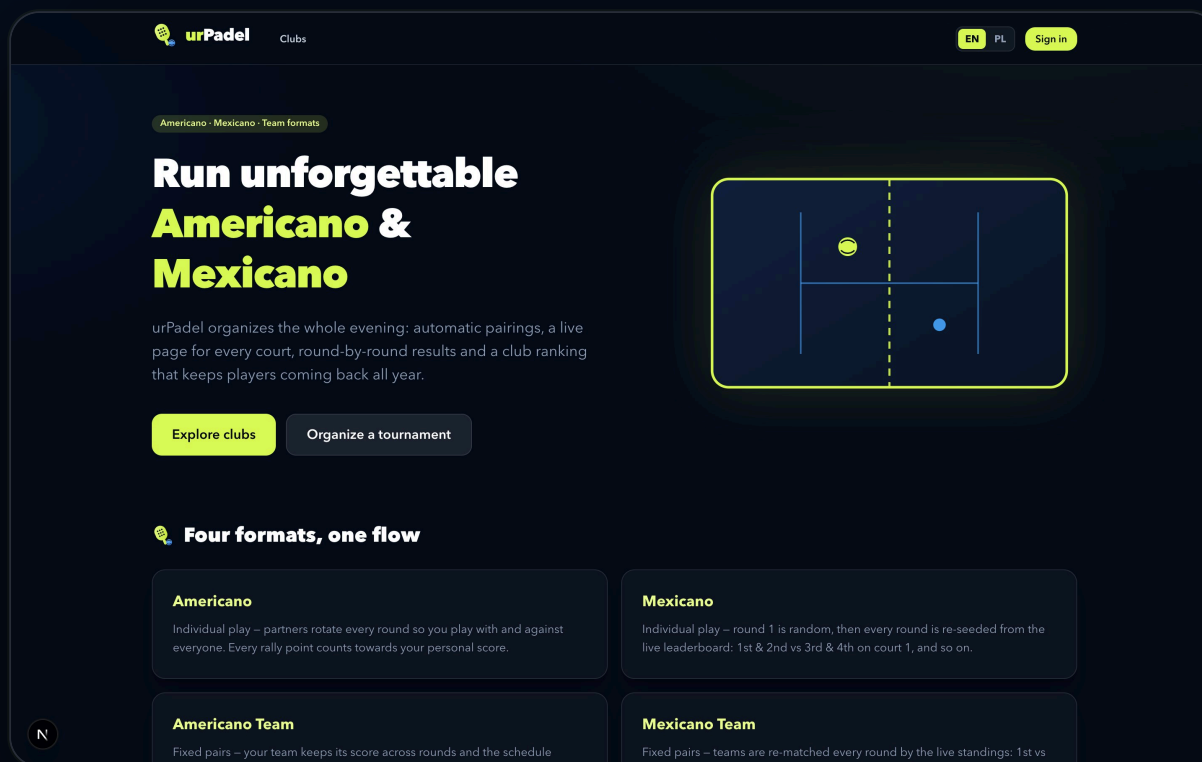

The complete platform for social padel tournaments – automatic pairings, live scoring at every court, and a club ranking that keeps players coming back all year.

ur-padel-ten.vercel.app

ONE PLATFORM, THE WHOLE EVENING

Everything a padel night needs, in one place

Clubs organize, players score, rankings update themselves. Four tournament formats, a smart pairing engine, and a public page for every club, tournament and court.

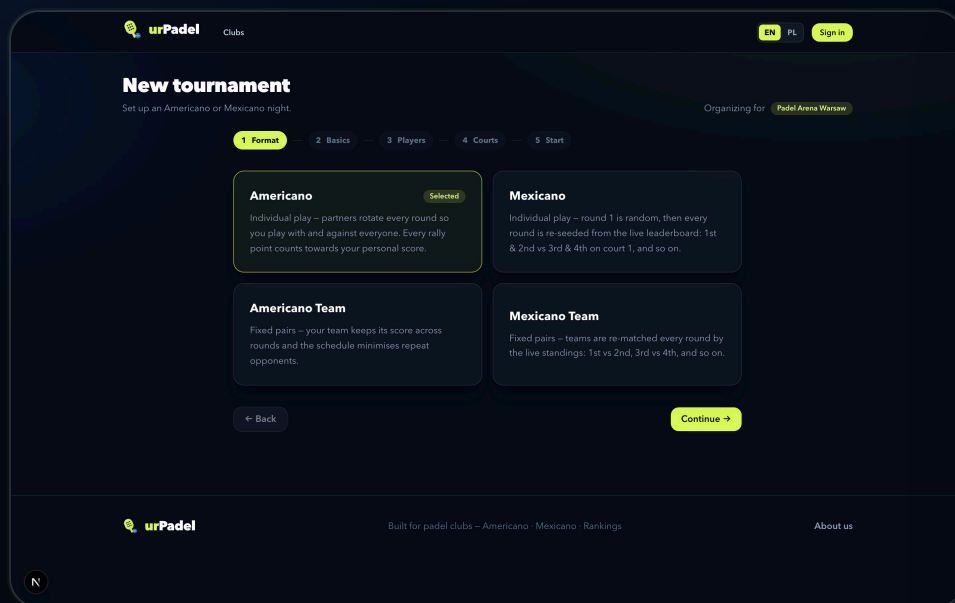

Four formats, one flow

Americano, Mexicano and their team variants – every rally point counts towards the personal (or team) score, and the highest total wins the night.

CREATE A TOURNAMENT IN MINUTES

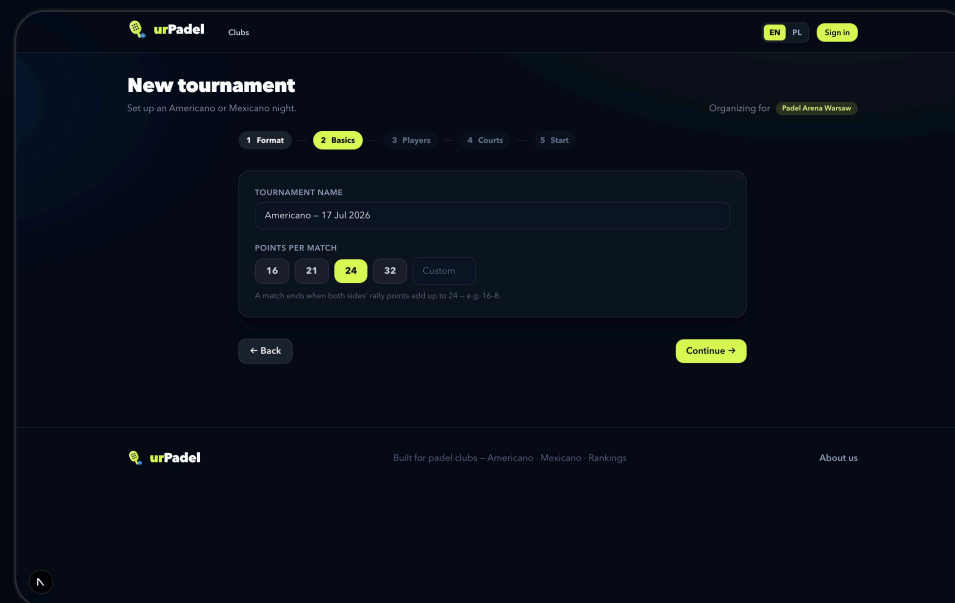

A five-step wizard anyone can drive

1

Pick the format

Americano, Mexicano, Americano Team or Mexicano Team – each explained right on the card.

2

Name it, set the points

21, 24, 32 or any custom rally-point total per match – with a live example of what a finished score looks like.

CREATE A TOURNAMENT IN MINUTES

Players in seconds – straight from Playtomic

Tick players from the club roster, quick-add a name, or paste / upload a Playtomic export, CSV or plain list – header rows and duplicates are handled automatically. Team formats add a pair builder with one-click shuffle.

The screenshot shows the 'urPadel' interface for creating a new tournament. The top navigation bar includes the 'urPadel' logo, a 'Clubs' link, and language options 'EN' and 'PL' with a 'Sign in' button. The main heading is 'New tournament' with a subtitle 'Set up an Americano or Mexicano night.' and a progress indicator showing steps 1 (Format), 2 (Basics), 3 (Players), 4 (Courts), and 5 (Start). The current step, '3 Players', is highlighted. Below the progress bar, the 'Selected players (8)' section displays a list of player names with removal icons: Adam Kowalski, Maria Nowak, Carlos Diaz, Sofia Russo, Jakub Wiśniewski, Elena García, Tomás Silva, and Anna Lewandowska. The 'From the roster' section on the left lists players with checkboxes: Adam Kowalski, Anna Lewandowska, Carlos Diaz, Elena García, Emma Johansson, Hugo Martín, and Jakub Wiśniewski. A 'Quick add a name...' input field and an 'Add' button are at the bottom of this section. The 'Import from Playtomic / CSV / text' section on the right features a text area for pasting names, a 'Wybierz plik' button, and a status message 'Nie wybrano pliku'. At the bottom of the screen, there is a '← Back' button, a 'Continue →' button, and a small 'N' icon in a circle.

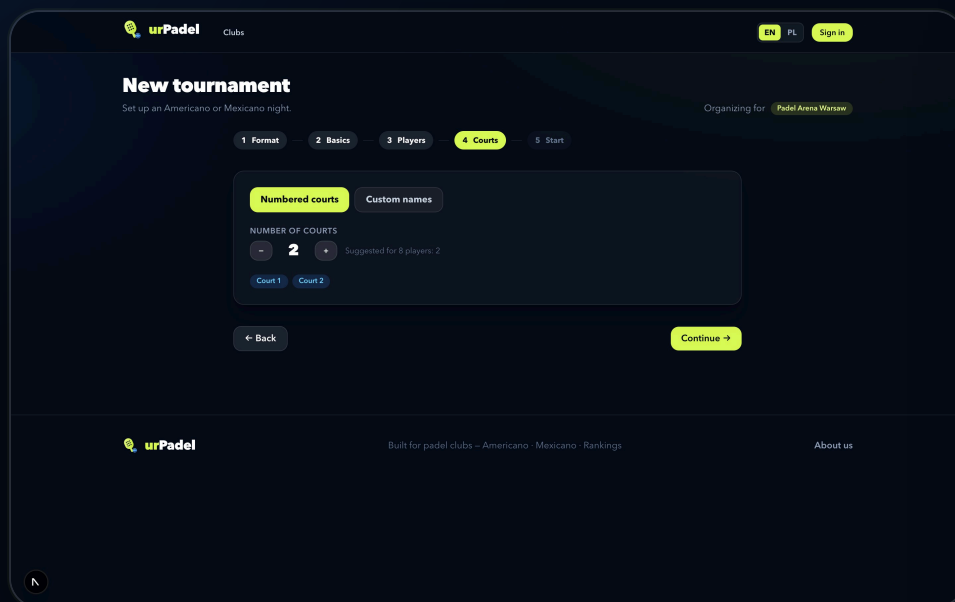

3

Select & import players

The selected list shows live counts and warns about uneven groups – rests rotate fairly, so any player count works.

CREATE A TOURNAMENT IN MINUTES

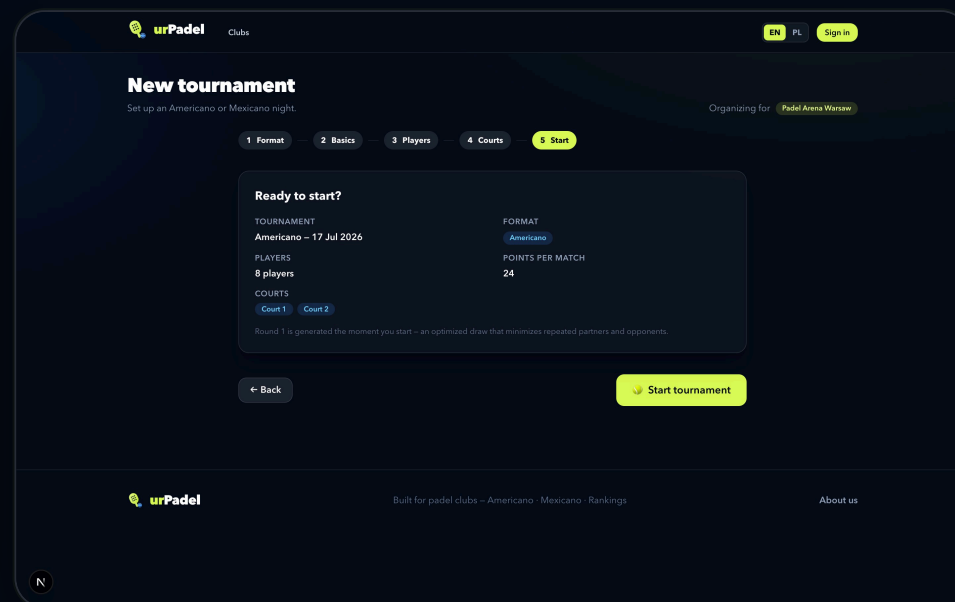

Courts, review – play

4

Choose the courts

Numbered courts with a smart suggestion, or custom names like “Center Court” and “Panorama”.

5

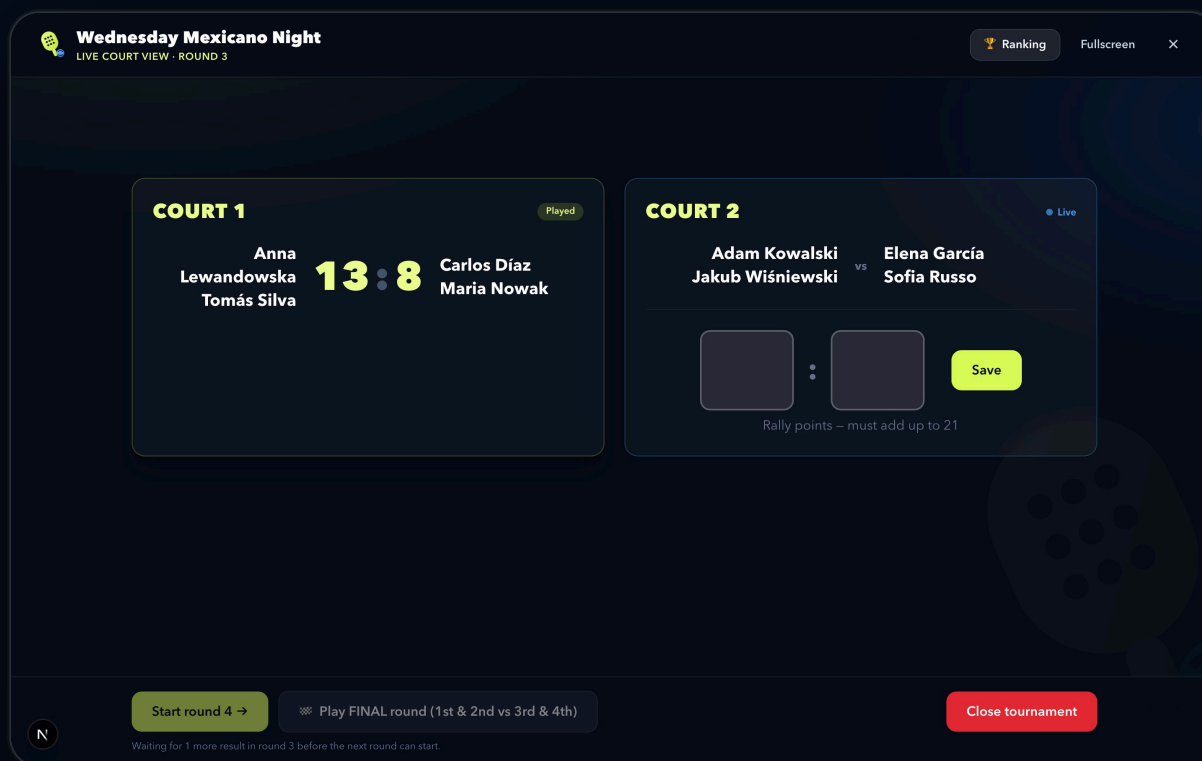

Review & start

Round 1 is generated the moment you start – an optimized draw that minimizes repeated partners and opponents (Mexicano draws a lottery).

RUN IT LIVE

One big screen for the whole round

The fullscreen court view is built for a TV or laptop at the club: every court with giant score inputs, next-round and final-round controls, and a live ranking popup – nothing else on screen.

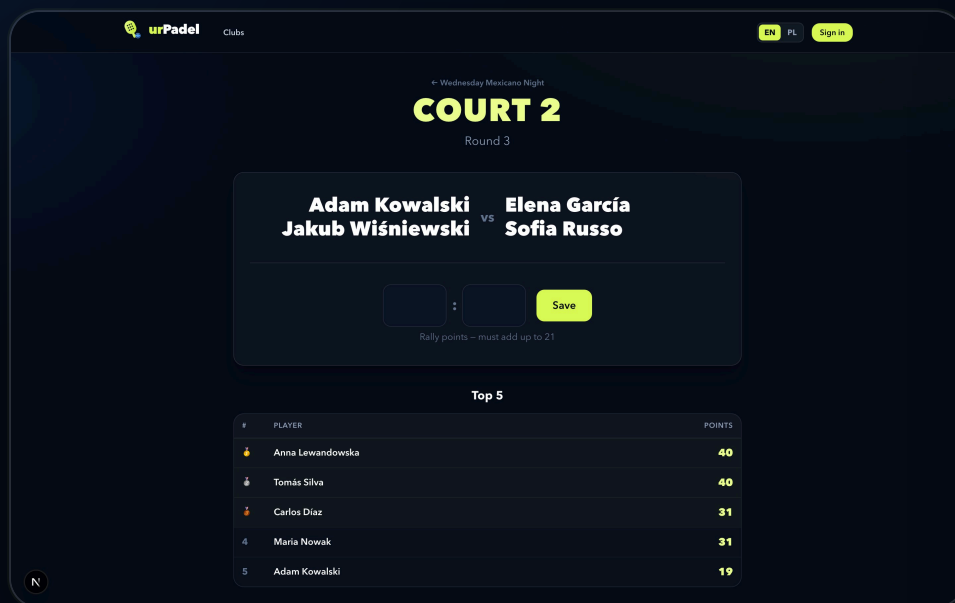

Fullscreen presenter view

Played matches glow volt, live ones pulse blue. The final round is seeded from the standings: 1st & 2nd vs 3rd & 4th.

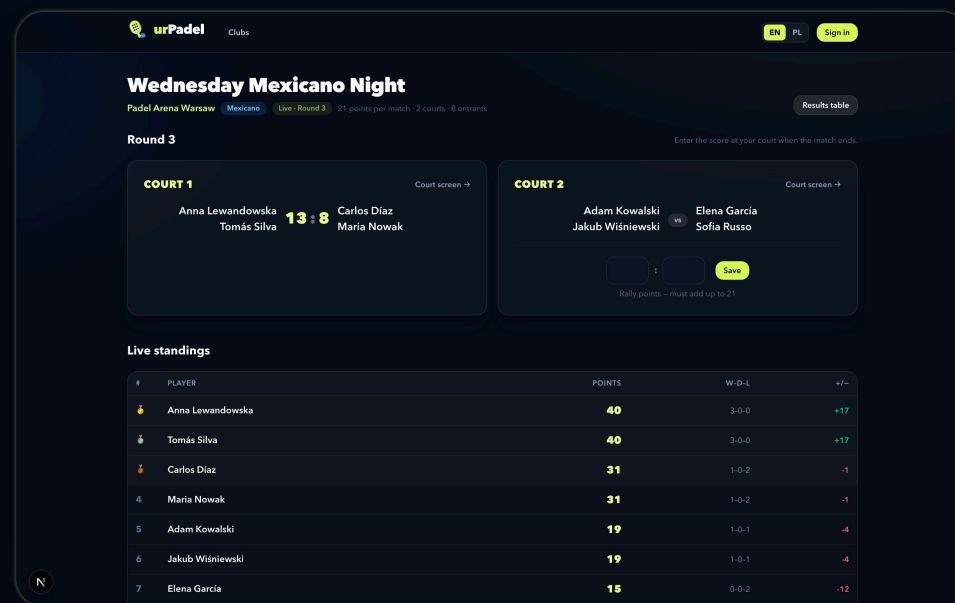

RUN IT LIVE

Every court gets its own page

Tablet at the court

Players enter the score the moment the match ends – validated so both sides always add up to the match total. Auto-refreshes into the next round.

Public live page

Anyone can follow the tournament: current round by court, live standings and the full round history – no login needed.

AFTER THE LAST RALLY

Results and a ranking that matters

Club ranking

Rolling 12 months · 100 pts for a win, down to 1 for playing

#	PLAYER	POINTS	TOURNAMENTS
1	Jakub Wiśniewski	300	4
2	Tomás Silva	280	4
3	Lucas Fernández	221	4

Round-by-round results matrix

Every player, every round, one table – for every tournament, live and after it closes.

Rolling one-year club ranking

100 points for the win down to 10 for tenth, 1 for showing up – valid for 365 days, with manual adjustments for managers.

Everything on board

FORMATS & ENGINE

- ♦ **Four formats** – Americano, Mexicano, Americano Team, Mexicano Team
- ♦ **Smart pairing engine** – minimizes repeated partners & opponents, perfect rotation when one exists
- ♦ **Mexicano re-seeding** – 1st & 2nd vs 3rd & 4th, every round, from the live standings
- ♦ **Standings-seeded final round** for every format
- ♦ **Fair rests** – byes rotate automatically for any player count
- ♦ **Configurable match points** – 16 / 21 / 24 / 32 / custom

ORGANIZING

- ♦ **Five-step wizard** with live validation and warnings
- ♦ **Player import** – Playtomic exports, CSV or plain text
- ♦ **Roster quick-pick** + team builder with shuffle
- ♦ **Courts your way** – numbered or custom-named
- ♦ **Multi-club support** with explicit club selection

LIVE PLAY

- ♦ **A page per court** – tablet-friendly score entry at the net
- ♦ **Fullscreen presenter view** – all courts, round controls, ranking popup
- ♦ **Validated public scoring** – sums always match the point total
- ♦ **Live standings** with auto-refresh everywhere
- ♦ **Manager corrections** for any round, any time

RESULTS & RANKINGS

- ♦ **Results matrix** – every player × every round, for every tournament
- ♦ **Club ranking** – 100/90/.../10 pts + 1 for participation
- ♦ **365-day rolling window** – always the last year of padel
- ♦ **Editable entries** and manual point adjustments

CLUBS & ROLES

- ♦ **Public club pages** – tournaments, results, ranking
- ♦ **Club manager panel** – roster, ranking, tournament control
- ♦ **Super admin panel** – clubs, manager assignment with user search, admin accounts
- ♦ **Full audit log** – every action recorded and filterable
- ♦ **Secure sign-in** with Clerk

EXPERIENCE

- ♦ **English & Polish** – one click, auth screens included
- ♦ **Modern dark UI** – navy & volt, consistent everywhere
- ♦ **Responsive** – phone, tablet, laptop, club TV
- ♦ **Demo club included** – 18 players, played tournaments, live ranking

UNDER THE HOOD

A modern, production-grade stack

Next.js 15

App Router with React Server Components – every page rendered fresh on the server, APIs and UI in one codebase.

React 19 + TypeScript

Strict TypeScript end to end, from the tournament engine to every screen.

Tailwind CSS v4

A custom navy-and-volt design system: one look across public pages, panels and the presenter view.

Clerk

Secure authentication with role-based access – super admins, club managers, players – localized in English and Polish.

MongoDB Atlas + Mongoose

Cloud database storing clubs, rosters, tournaments with full round history, rankings and the audit log.

Vercel

Deployed globally on Vercel's edge network – the app you're reading about is live right now.

Built to be trusted

The pairing engine is validated with automated simulations (perfect partner rotation, fair rests, correct Mexicano seeding) · UI flows verified with Playwright browser automation – the screenshots in this document were captured by it · dependencies patched against the latest security advisories (incl. CVE-2025-66478) · every mutation is authorization-checked and audit-logged.

Ready to run **your** tournament night?

Open the app, browse the demo club, or set up your own club in minutes.
